BENEFITS OF NUT BUTTERS

Aids Weight Loss

Eating peanut butter at few hour intervals fill up your stomach for longer time and controls hunger. Hence it prevents weight gain.

Protein Rich

Peanut butter is tasty and filling, it is also an excellent source of protein. It's ideal for person aiming to gain mass and muscle.

Energy Booster

Not only the protein converts into energy but it also has carbohydrates which give you quick energy. Have it before your workout.

Heart Friendly

Studies have found peanuts reduce risk of cardiovascular and coronary heart disease.

Fiber Rich

Peanut butter contains more dietary fiber than whole peanuts and is good source of both soluble and insoluble fiber

Full of Nutrients

Research says eating Vitamin E rich diet lowers risk of certain cancers. It has Vitamin B3, hence you are likely to less develop Alzheimer. It has ability to Lowers LDL and increase HDL

Healthy Fat

Peanut butter contains more unsaturated fat than saturated fat making it a fat friendly food.
